Development Manager FCB Chicago

9/2013-present

Manage a team of developers with advanced knowledge in front-end technology to create award winning, innovative interactive user experiences and marketing campaigns for some of the most recognized and notable clients. I work closely with Directors, VP and clients to ensure that the work created is with the most modern technology and user experience to deliver the information to the user clearly and precisely. I am utilized during ideation sessions and project kick-off to be a resource of knowledge in development, UX, marketing and design to ensure the best possible results.

Senior Interactive Developer (Front-End) Abelson Taylor

11/2010-9/2013

Developing cutting edge websites, applications and Interactive Visual Aids (IVA). Utilizing HTML5, CSS3, Objective C and Actionscript to create award winning work that is modern and innovative to the pharmaceutical and medical industry to inform HCP and patients the needed resources and information needed and still working within the highly regulated environment to create new experiences in the delivery of the information that became very beneficial.

Creative Director - Senior Developer Pixologists

01/2007-11/2010

Developing websites and interactive digital experiences for a number of clients to increase their digital presence in the evolving market. Building large scale websites, interactive gaming, interactive training material, flash banner ads and email campaigns. Designing and developing the material and working with other teams and developer to carry consistency through all the different campaigns and digital experiences per client.

Adobe Mastery Instructor (Photoshop | Flash | Dreamweaver) American Academy of Art | Digital Bootcamp

01/2007-11/2010

Developing a curriculum and teaching 16 week courses based on HTML, CSS, Actionscript, Photoshop and After Effects. Teaching the basics of web sites, animations and emails using dreamweaver and flash. Teach advanced image manipulation and special effects used in print | video using photoshop and video compositions using after effects
